Dear Sir / Madam.

Re Stag Brewery.

Planning Application. 18/0549/FUL.

The proposed alterations to Chalkers corner will not solve the traffic problems & will result in loss of mature trees. The money ~~is~~ saved could be better spent on Mortlake Station & the Sheen Lane level crossing.

Planning Application 18/0548/FUL

Does this new proposed secondary school have to have a sixth form? Richmond was an excellent sixth form college. Any reduction in no. of pupils & staff etc welcome from traffic point of view. The Sheen Lane level crossing is quite dangerous at present without adding an extra 500 plus secondary school children using it at busy times. Another pedestrian bridge and or tunnel under station are needed.

Also the possibility of running special buses for the school only at start and end times, <sup>of the school days</sup> thereby not adding to the ever rested traffic at all through the day.
