Subject: Please note my objections to the proposed Stag Brewery site application.

To whom it may concern,

I am writing to strongly express my concern about the size and manner of the proposed Brewery site development in Mportlake.

I have lived in Barnes for 27 years, and work within the NHS as a local Health Visitor, serving the needs of local families for over 20 years; my team being based opposite the Brewery site at 67B Lower Richmond Road, SW14 7HJ.

During the past two decades I have seen the traffic on the roads increase considerably.

Re - Ref 18/0549/FUL - the alterations to Chalker's Corner and the removal of an area which currently forms part of Chertsey Court.

I believe that the planned changes will only make the traffic congestion far worse, and cause stasis of traffic, leading to more pollution which is objectionable for adults in the area, but extremely dangerous for babies and children, with rapidly growing brains and lungs.

With this development, there appears to be no strategic approach to resolving traffic congestion - it ought to be a combined effort with TFL and Richmond Council.

In my opinion, the size of this development will exacerbate a worsening situation with harmful impacts affecting all road "users" including bus passengers, pedestrians and of course people living by them. An estimate additional 500 car journeys are estimated to arise from this new development.

I am asking the Planning Department to re-think the size and density of the proposed development, as there has not been enough thought put into the infrastructure required for the many hundreds of dwellings planned.

Please listen to the local population.

Yours sincerely,

Seonaid Joynson

30 Westwood Road, Barnes SW13 0LA
