Subject: Brewery development

22/9

To whom may concern,

I object to this new development for I believe it is poorly thought through. This development includes 800 luxury homes and a new school with 1200 pupils.

The current traffic problems are already high. The mayor issues being the smaller roads, the level crossings limiting traffic flow, the river hindering any relief roads and the nature of our residential area being mostly of compact housing. There seem to be no plans for creating public transport or building housing for people less likely to use cars for people on lower incomes. On top of this if extra public transport was increased that would only exacerbate traffic problems with the level crossing and the congestion on our small roads.

Kind regards,

Esther and Edison Yarde
