Petition against the Chalkers Corner Planning Submission: REF8/0549/FUL

Summary and Background

This petition is in response to the recent Mortlake Brewery Site developer's proposal for the reconfiguration of Chalker's Corner. As local citizens we reject the planning submission as it fails to adequately address the concerns of the residents living directly on Lower Richmond Road and the wider community. Failure to address these concerns will have a hugely adverse affect on our livelihoods. In light of the Mortlake Brewery Redevelopment, we are in agreement there is a need to address traffic flows, bike lanes, pollution, parking and the environment, however this proposal falls way short. We feel the process and proposal lacks rigour and feel more consultation about the real issues and practical yet fully thought thru solutions need to be found. This may take more time however we have only one chance to get it right. The failure to properly provide for these elements will be detrimental to our not only our lives and community but for those of generations to come.

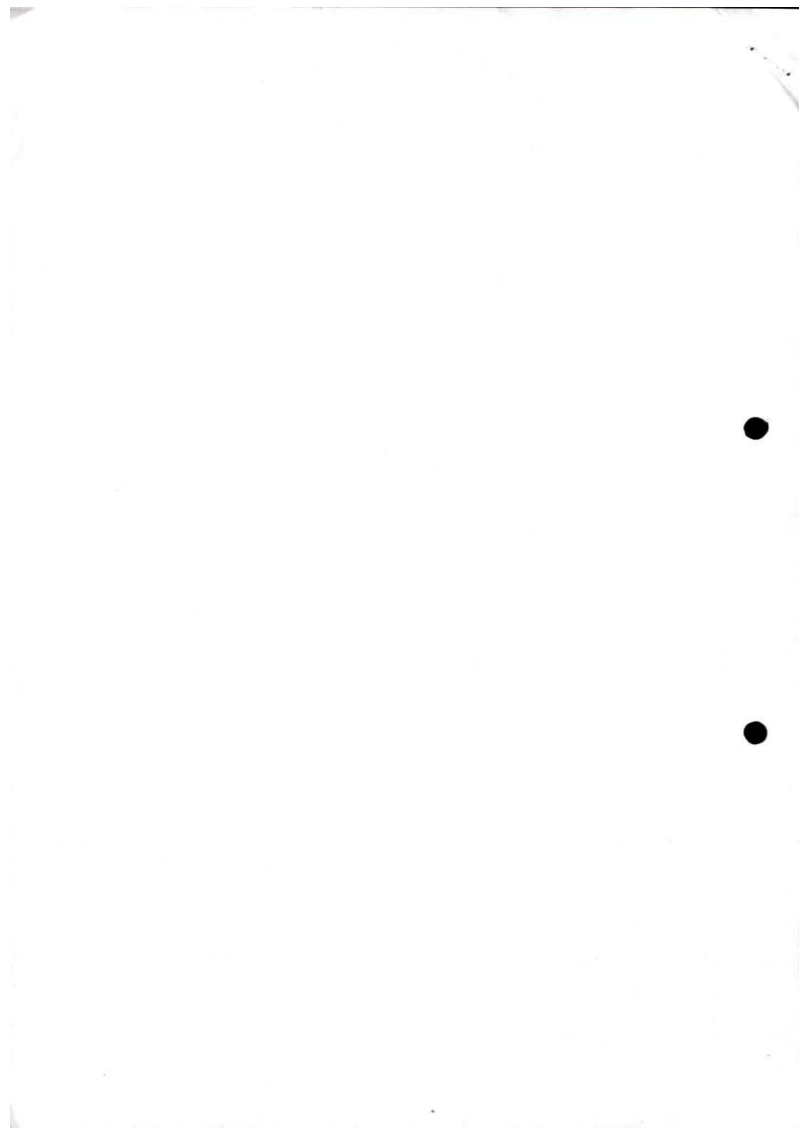

Action petitioned for:

We the undersigned are concerned citizens of Lower Richmond Road and the wider Mortlake community who encourage our leaders to act now in relation to the proposed redevelopment of the Chalkers Corner Junction.

We oppose the reconfiguration / redevelopment of Chalker's Corner on the following grounds:

- 1) Oppose the introduction of a **permanent bus stop** to replace the existing temporary bus stop.
- 2) Oppose any **reduction of existing parking** along the Lower Richmond Road and encourage the introduction of a **Lower Richmond Road Residents Only Protected scheme**.
- 3) Oppose the introduction of a wholly **inadequate partial bike lane** on only one side of the Lower Richmond Road
- 4) Oppose the **loss of trees / landscaping**
- 5) The increased levels of **air and noise pollution** has not been addressed
- 6) **Pedestrian and bike safety** has not been properly addressed
