Dear Sirs,

Reference number 18/0549/FUL.

I wish to raise concerns on the above.

● These are that vehicles involved in the construction will add to the very heavy traffic that travels up and down Lower Richmond Road, SW14.

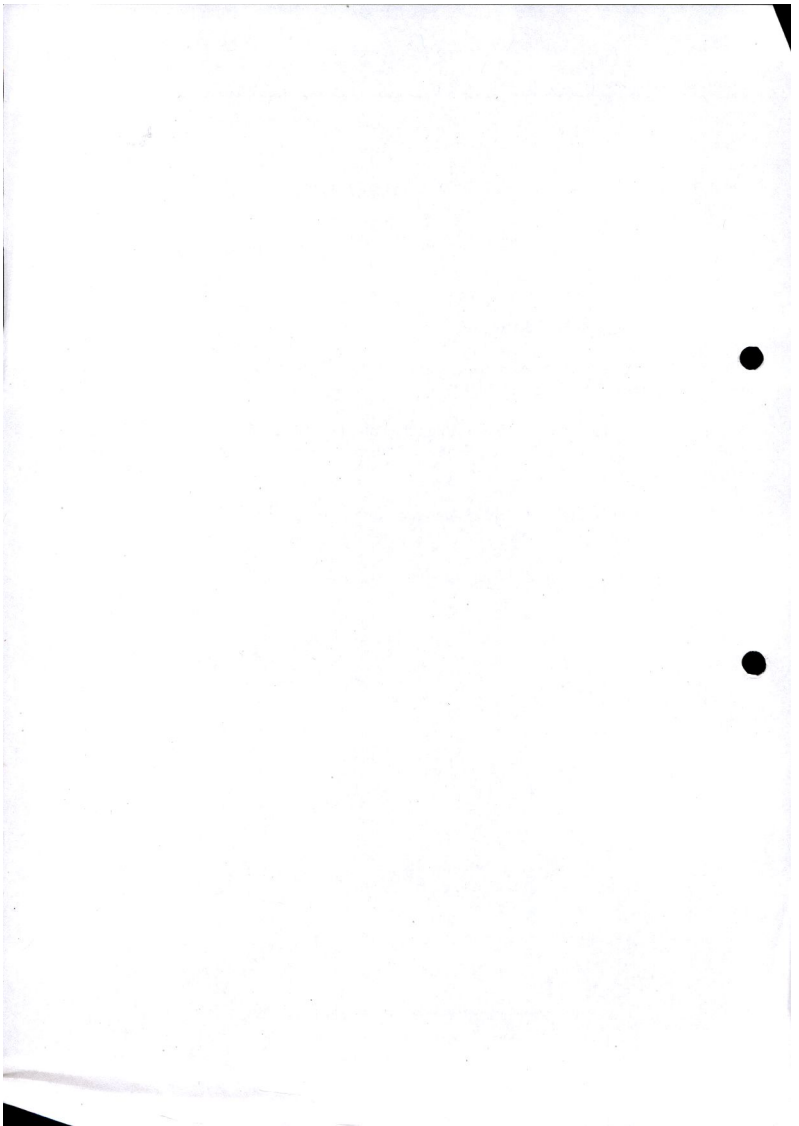

We live at 139, and are very concerned about the pollution, which already is very high, will get close to dangerous levels with all the extra traffic that will occur, not only during construction but after.

We have a driveway, and feel the very high level of traffic will make it even more difficult to even get out of our own driveway.

I hope these views are taken into consideration.

Yours faithfully,

● Peter Sheldrake  
139 Lower Richmond Road,  
Mortlake,  
SW14 7HX.
