Dear Sir / Madam

I object to the planning application number
18/05149/FUL.

I am very worried about increased noxious fumes.
My chest causes me problems from time to time,
and the symptoms are like asthma. This development at
Chalkers corner would not help it.

There would also be increased traffic noise as a result
of more vehicles and being nearer to our flat
it is horrific to think that our trees would be
sacrificed. I will not live long enough to see
the trees develop into their glorious size & colour
that they are at present.

Yours faithfully

MIKE King
