10 May 2018

Dear Sir,

Planning Application: 18/0549/FUL

I strongly object to this planning application. Considering all the air pollution and the noise from what would obviously be increased traffic, and to destroy beautiful, natural trees, which are healthy and good on the eye, this project has no right to be carried out. It would be a blight on people's lives - particularly those of children and elderly. I am disgusted that the idea was brought up in the first place. It is an abomination.

Yours faithfully,
[Redacted Signature]
