Comments

Type of comment: Object to the proposal

Comment: I strongly object to the proposed building which differs little from the original application submitted. The height of the building will encroach on the privacy of the east facing houses opposite in Anlaby Road and on the neighbouring houses and gardens to the north and east. The building is too large and imposing for the site and will obscure the view of the attractive existing building of Townscape Merit from Anlaby Road, and it will also obscure the light and the view from the west facing flats in that building. The land would be better and more attractively used to provide gardens and outdoor space for those flats which have virtually no outdoor area at present. In previous times the area was beautifully landscaped and a pleasure for everyone to enjoy.

The building of another 14 flats will bring further traffic and parking problems to the residents of Anlaby Road and the provision of 14 onsite parking spaces will not be sufficient as some of those spaces are already used by the existing flats, several of which have yet to be sold or let.

I urge the council to reconsider this application.
