Type of comment: Support the proposal

Comment: This application has my full support and will meet the necessary needs of the children, the school and general public. The design is considerate and practical for the surrounding, the neighbouring houses and the environment. It will provide a top class sports and art teaching facility to our next generation. The benefits of this infrastructure will outweigh the temporary interruption during the construction time, but I am sure the school and the construction Company will take a good care of the process as all the students and staff will continue studying and working on site.

I sincerely hope the council will have a longer term view and grant this application, as it will benefit our future generations and provide a better offering to the local Barnes community.
