

NOTES

Application Reference Number: 19/1671/HOT -
Condition Number(s): U0068839 Rooflights -

The condition states that the flat rooflights on the dormer roof must not be opened. It is requested that this be removed so that the rooflights can be opened to encourage natural cooling of the dwelling through a designed solar chimney instead of having to install air conditioning. Please remove the condition or allow them to be openable. It should be noted that they will mostly be open in the height of the summer.

Dashed line shows extent of openings.
