### Comments

**Type of comment:** Object to the proposal

**Comment:** I do not wish to prevent the school from expanding its facilities but I do object to the size, location and usage of the proposed building for the following reasons:

- The size of the building will make it an unpleasant eye-sore for all that live close by.
- The proposal to use the facility outside of school hours and open to the public will create parking issues outside our property not to mention the constant traffic. We currently enjoy a peaceful neighbourhood.
- The extra traffic both by construction and then the use of the facility as a public space will cause local disruption, potentially attract more crime and increase traffic close to the Suffolk Road playground which my children use.

I would suggest that the School reconsiders the scope and location of the building and put it further away from residents view. I would also like to object to its use for the public. Surely a school only needs to extend its facilities for the benefit of the children attending not to generate income at the expense of local residents?
