Comment: With the rise in obesity and our increasingly sedentary lives, permitting The Harrodian to build indoor sports facilities is something I wholeheartedly support and see as essential to the wellbeing of our children who attend the school. We know that many chronic diseases are linked to poor lifestyle choices and instilling a good exercise practice in children is paramount if we wish them to grow up in good health.

Enabling the sporting facilities to be used by the local community is a wonderful idea and helps ensure that the hall can be of benefit to all - particularly if access costs are kept low and affordable.

I understand that due to the current placement of trees already in situ, the new space will not be visible from adjoining properties and therefore, post build, the visual impact on neighboring houses will be minimal.
