Type of comment: Support the proposal

Comment: The existing structures have outlived their usefulness and are now dated and not fit for the purposes that the community now wants.

I cannot see any heritage or architectural value in the current buildings, so there is no problem with altering/removing them.

The proposal is small in scale and will not detract from the area. It will probably be an improvement in comparison to the existing structures.

The community needs improved facilities like this, so this is a welcome development.
