Comment: To clarify my objection to this proposed development and its impact on my living conditions I wish to make the point that loss of view is the incorrect term, loss of outlook is how I should have phrased my objection.

The proposed development has a severe impact on outlook from my property and is an intrusion on the living conditions, the new builds are directly in front of the windows and will have a detrimental consequence to the outlook and light. There is plenty of room to the east of the proposed new build for the structures proposed, if this were to be the preferred option for the developers of this site then the impact on residents of Beaufort Road would be far less and a positive outcome for all could be achieved. By moving the builds to the eastern corner of the park there would be no detrimental impact on those neighbouring the park and the conceived centre could go ahead without upset to others that live adjacent to the site. I cannot see why this should not be a consideration and indeed a preferred option.
