Comment: I write to give full support to the above planning application.

The proposal would bring a dilapidated site back into positive use which would benefit the area all year round for many future generations. The removal of the existing buildings would improve the visual appearance of the area as the buildings are in significant disrepair.

In addition, the proposed dwellings would overlook an area of open space which I believe would increase natural surveillance of the area and would deter anti-social behaviour.

The collaboration between all of the charities (English Heritage included) who have dedicated themselves to the local community for many years, encompasses a spirit often lost nowadays. An eco-friendly and disability accessible facility would be a much welcome addition to the borough and for the disability community. By approving planning it could only benefit Richmond and the surrounding landscape positively. This special circumstance outweighs any negativity.
