Comment: We wholeheartedly support this development. One of our children has additional needs and has participated in Skylarks activities over the years, while we have benefited from the advice and support services for parents. Having activities available in one permanent location will be hugely beneficial as the rooms currently used by Skylarks are cramped and not fit for purpose. It is exciting in combination with the plans for accessible outside play areas, as the building Skylarks currently uses has very little in the way of usable outdoor space. We look forward to the adventure playground area being more accessible to all children, so both our children can safely enjoy the excitement of the equipment. We are particularly happy that the space will have many purposes and be used by all children, so as well as a hub for families of children with additional needs, it can be a place for the whole community.
