Comment: Early on in this project I was asked to Chair meetings for the various charities involved so there would be an outside person to oversee these meetings. I was hugely impressed with all the charities approach to the project and of their various urgent needs for this new build. The building is now clearly not fit for purpose. The new design will be a huge improvement and will add extra indoor space within a sustainable and attractive to the eye building. Outside space is also much needed for development and play for the very young.

The one o'clock club has been an integral part of the local community and wider community (as one can see from the comments) for young families and I believe should be fully supported by the community at large. I myself have enjoyed its use for both my own children and now with my grandchild, but in its current state it is not a desirable place to visit as it is so rundown.

I therefore fully support this project.
