Type of comment: Object to the proposal

Comment: I object to this Application on the following points:

1. This area is a conservation area and no major changes should be undertaken. The children's club house looks dilapidated and we have no objection to demolishing and rebuilding on the same existing footprint. However the proposed planning application would increase considerably the footprint which is totally objectionable. The proposed increase in footprint would add new commercial enterprises.
2. The existing noise level in the summer playground is well above acceptable. However, we have accepted this all along but to increase the amount of noise because of the new proposals of space would infringe on our privacy of noise level considerably.
3. Traffic would increase considerably due to the extra amount of visitors.
4. To increase opening hours without specific timing is unacceptable as it could be extended and nuisance noise due to traffic would infringe on our privacy.
