Architect/Designer

Date: 02 June 2021

Project: 60 Queens Road, London SW14 8PJ

Fire Statement

Application to have a pod over the back addition of a Victorian terraced property.

Proposed Works:

To build a loft extension over the back addition which already has a loft conversion on the main part of the house. The main access to the property will remain the same and the work should not affect the fire integrity or escape route from the occupants.
