Dear Kreena,

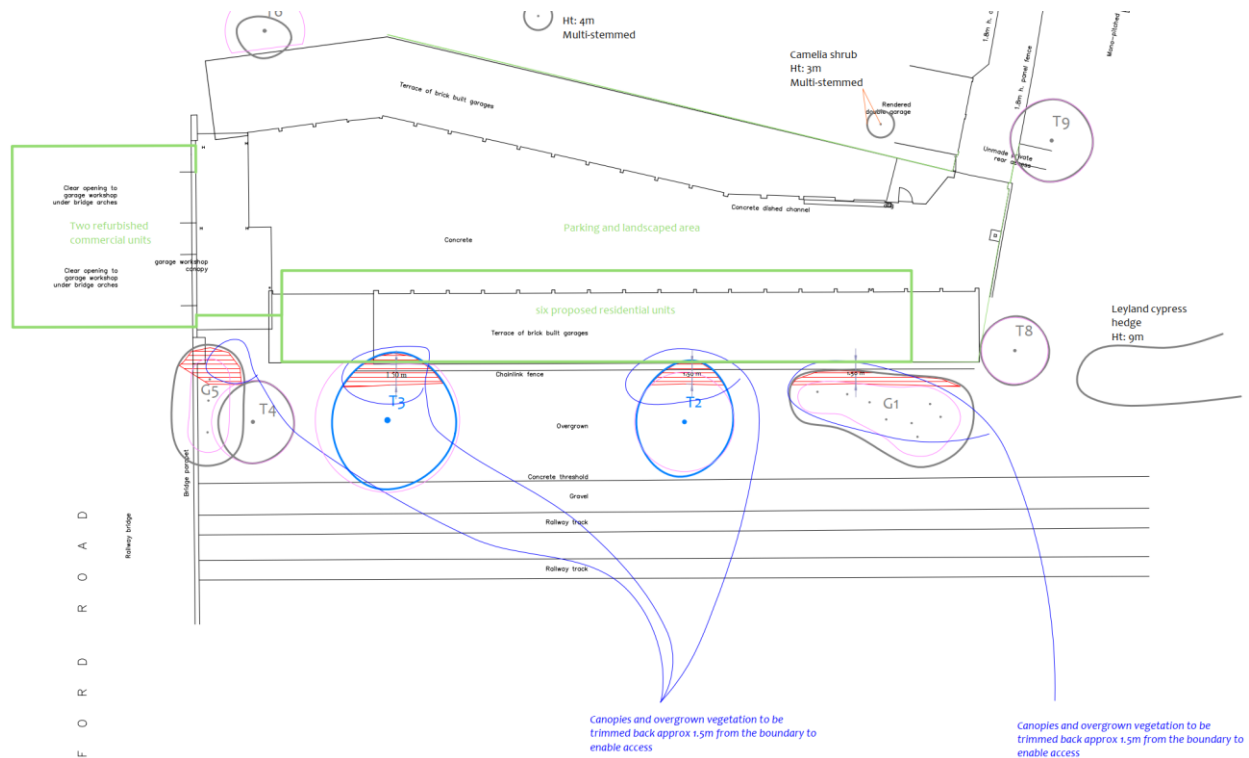

Reference: FW: 19/0691/FUL - Land Rear Of 127 - 147 Kingsway Mortlake London SW14 7HN

We produced a tree report for this site in 2016 (see attached) and I understand that you have requested an updated tree report to assess revised development proposals.

I understand that the proposed layout has altered in that the pedestrian footway has been removed from the bridge. No other amendments have been made.

I confirm that this alteration makes no difference whatsoever to my original assessment of the impact on trees.

The only impact / required works is to prune back the canopies of trees to 1.5m from the southern boundary as shown below. Omitting the footway will not alter this assessment. Neither will re-measuring the trees.

I trust that the above is clear and I look forward to hearing from you if anything further is required.

Kind regards

Ivan Button N.C.H. (Arb), FDS (Arb), BSc. (Hons), P.G.C.E. M. Arbor. A.
