

Preliminary Drawings

Rear Dormer Only

Volume Calculations

Full Width Dormer

$V_{Dormer} = \frac{(L \times H)}{2} \times \text{Width}$

$V_{Dormer} = \frac{(4.20 \times 2.87)}{2} \times 4.74$

$V_{Dormer} = 28.56m^3$

TOTAL VOLUME = 28.56 = < 40.0m³/100m² = PD Checked OK

SCALE BAR – 1:100

NOTES:

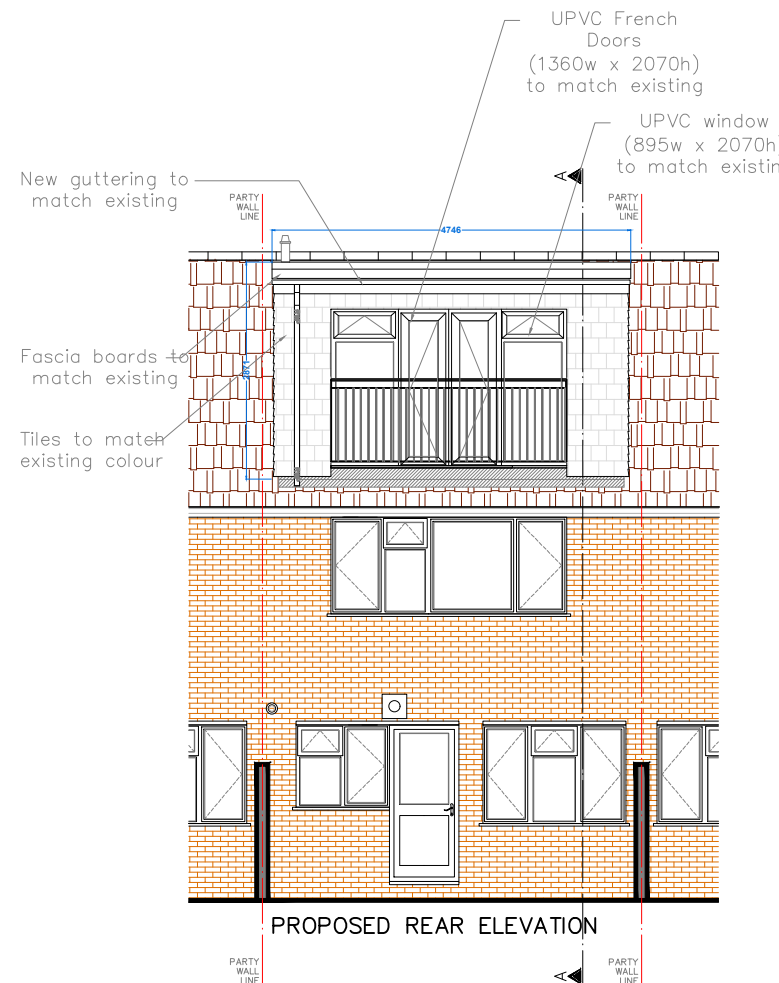

SkyLofts will do everything possible to convert your loft space as per the measurements shown, however, measurements are subject to change on site due to external factors. All measurements shown are approximate and are not to be used as a working drawing and use figure dimensions.

Existing foundations, lintels and walls to be exposed if required by Building Control for assessment and upgrading if found to be inadequate.

This is a DRAFT drawing ONLY and must NOT be used as a working drawing. SkyLofts will issue all final working drawings to all contractors for use on site.
