**Type of comment:** Object to the proposal

**Comment:** I have concerns with the current development plans based on the impact a significant increase in traffic will have from this number of additional housing units. South Worple Way is a narrow road, completely unsuited to any increase in traffic; in addition the junction of South Worple Way with White Hart Lane is at a very busy railway junction, and as such completely untenable and potentially unsafe, short-term for the construction vehicles and long term with the increased residential traffic.
