Comments

Type of comment: Object to the proposal

Comment: Objecting on following grounds:

1. The site must be considered as a whole, not just the residential element - there are three elements to this site, not one residential one
2. The consultation period is far too short with the majority of the time during holidays when people may be away - the period must be extended. 11 working days is unacceptable
3. Some local neighbours have not received consultation letters.

This is a rush job on a very sensitive site with extensive transport and parking issues. I object.
