### Comments

**Type of comment:** Object to the proposal

**Comment:** I object with the proposal that would grant the developer a "drop-in" full application to supersede residential development zone of previously approved Outline planning permission 18/3642/OUT because at Outline planning in 2018 it was agreed all three functions of this site be viewed together. This proposal means key issues like transport and access, massing and sustainability are not clear to locals across the whole site. Furthermore, I'd like to demand an extension of the consultation period from Jan 2 for 10 days, or to also demand that all three uses of this site be considered together as Council agreed in 2018, so to leave enough time to residents to evaluate the proposal's documents.

Faithfully,  
Alberto de Monte
