Comments

Type of comment: Object to the proposal

Comment: I strongly disagree to the development in respect to the fact that the transport infrastructure cannot cope with the current Volume of traffic let alone the proposed number of units this scheme would bring.

Sited on lower worple way not far from the railway crossing which is a single access lane (not a two way highway as previous application has suggested) The queues that exist already and cars mounting pavements is a daily occurrence.

I would like to see a more holistic transport proposal as part of this application.
