### Comments

**Type of comment:** Object to the proposal

**Comment:** There is simply no space in this high density area for hundreds more flats. Access to and from White Hart lane is not a safe option. There is not sufficient infrastructure to accommodate a large housing development in this area. The only access would be from WHL which has regular queues when the barrier is down. This is already a congested turning from South Worple Way onto WHL and would be more dangerous than it already is.
