Comment: These Covid times have highlighted quite starkly the need for green space. I do not understand why developers insist on building on every blade of grass to deliver sub standard, formulaic tower blocks that offer no esthetic value to the area.

Furthermore the plot on which the proposed development resides is adjacent to a very narrow lane , unfit for any serious volume of traffic and quite close to a very busy level crossing.

The development needs to be descaled and offer what is severely lacking in this area, family homes.
