Type of comment: Object to the proposal

Comment: First and foremost, the traffic infrastructure in the area is not able to accommodate said proposal. Traffic congestion in the area is already a hinderance to residents, and any further development to the brewery will only worsen the situation and more than eradicate any possible positive effects of the development on the area. Congestion at Chalker's Corner and the Mortlake level crossing are already impacting the attractiveness of the area to residents, while the impact on the surrounding areas is disastrous already. Further adding to the traffic load as a result of the redevelopment would make things considerably worse.

I also question whether the area is in need of another secondary school, as opposed to spending money on the existing schools in the area.
