### Comments

**Type of comment:** Support the proposal

**Comment:** Strongly support the proposal: the Mortlake High Street / Mortlake Green area would be transformed by the presence of a genuine "town centre" with walkable public spaces, and the current site has been a derelict eyesore for far too long.

Building high density developments near to railway stations is a great way to tackle both the housing crisis and the climate crisis (it provides as many new dwellings as possible \*and\* encourages modal shifts in transport), so this sort of development should be a top political priority, and it saddens me that so many have tried to delay or block this scheme.
