Type of comment: Object to the proposal

Comment: I object on the following grounds: site appropriateness for a secondary school, and the removal of a valued community green space.

The projected student population of the proposed school is 1150, and the section of the site proposed for the school is inappropriately small to support this number of students. With the transport constraints incurred by the closure of Hammersmith Bridge and the reductions in bus and rail services imposed by TfL and SW Trains above added in, the proposal is not viable to support a thriving student experience. The loss of green space exacerbates this and incurs further harm to the local community.
