Type of comment: Object to the proposal

Comment: I object to the application on the grounds of Highway Safety; Traffic generation and Road Access. These major works will further disrupt the already chaotic situation affecting all transport in the area and no works should be considered until the existing causes of disruption have been addressed and overcome. At the least, these must comprise the commissioning and availability to traffic of Hammersmith Bridge or a replacement and alternative means of transiting the railway between Barnes and Mortlake other than the existing railway crossings.
