Comments

Type of comment: Object to the proposal

Comment: This proposal is way too over developed for the local area. There are too many buildings squeezed onto the site and too close together.

The development could do with being reduced by a third and the proposed height should be no higher than the residential buildings along the Thames Path towards Barnes Bridge.

The over-riding objection is the increase in traffic which will be generated adding to the severe pollution at Chalkers Corner.

The local single lane roads along Sheen Lane and the already congested Chalkers Corner and Upper Richmond Road West can't cope with more road traffic especially with the closure of Hammersmith Bridge & Sheen Gate at Richmond Park. The extra traffic generated by the build and the new residents will gridlock the local roads.

The congestion in the area is already intolerable, unhealthy and anti environment. The proposal is contrary to our Human Rights to live

peacefully and in an environmentally friendly environment.

The scheme does nothing to address congestion or improve the local area. The use of the space does not seem well thought through, for example there is no need for a cinema and the loss of the playing field is outrageous.
