### Comments

**Type of comment:** Object to the proposal

**Comment:** This is overdevelopment of this site; there is insufficient infrastructure to support the increase in residents, particularly transport usage; public transport is poor and the rail services have been cut; it is unrealistic to expect low car ownership of new residents; traffic is already horrendous. The buildings are too high. The loss of the facilities for the elderly is a step backwards; this proposal does not make the best use of the site nor in any way serve the needs of the local community.
