Comments

Type of comment: Object to the proposal

Comment: The applicant is still ignoring the fact that the local infrastructure is at breaking point already and the area at Chalker's Corner is a congestion and pollution disaster. A development like this cannot be sustained - which has been referenced repeatedly in each application, but still the developer makes no attempt to address it. The traffic situation in SW14 is a huge problem and the area cannot cope with large development. In addition the high number of stories proposed would be an eyesore on the local area. There is no need for a school in this area - current school offerings serve the area and already have gaps in year groups.
