Type of comment: Object to the proposal

Comment: Given the current congestion surrounding the site, additional congestion that will arise even from minimum residential development of the adjoining site, it is clear that the site is inappropriate for a school development of the size suggested.

When in opposition the current council administration did not support a secondary school at this site. It has been suggested that existing schools would be in a better position to provide for future pupil increases than a school cramped into an undersized site incapable of providing the range of facilities and sporting opportunities such pupils should rightfully expect.
