### Comments

**Type of comment:** Object to the proposal

**Comment:** The density of occupation in this plan will only create further traffic congestion in an already congested area. The height of the buildings is still totally out of keeping with this area of the Thames; the buildings' closeness to each other, and to existing buildings, is likely to create dehumanising living conditions; the proportion of affordable housing is still inadequate and should be evenly distributed throughout the plan. Introducing this number of extra people into the area will overwhelm the already stretched services available.
