### Comments

**Type of comment:** Object to the proposal

**Comment:** This whole proposal for so many flats far exceeds the ability of the existing roads, infrastructure, public transport, medical services and all other public services to cope with it. The buildings are far too high for the existing environment, the green spaces will become privatised and no longer available to the public. This site does not have the services of the city centre. With Hammersmith Bridge closed the Upper Richmond Road West is already a car park. This site should be used for public riverside amenities such as restaurants. Such an opportunity will not come again.
