Comments

Type of comment: Object to the proposal

Comment: Height still remains an issue. The proposals do not reflect the Brief issued by the Council in 2011 & 2015. The Council should ensure that all green spaces on the Development whether walkways or those areas surrounded by the development should at all times remain accessible to the public presumably by some binding Agreement entered into by the Developer with the Council prior to planning permission being granted. I support the views of the Mortlake with East Sheen Society but do not believe that possible flooding of the development should be a bar. If this Site goes under water, so will significant areas of London!
