Type of comment: Object to the proposal

Comment: There is no evidence to warrant the construction of a secondary school on this site.

The basis of the proposal should be on current need not anticipated future need. The secondary schools within the borough cope adequately with the demand for secondary places.

These current schools have the capacity for future expansion as and when required. Funding should be made available to them instead of this unnecessary proposal.

Secondly, the current road system is incapable of coping with existing traffic without the additional load from a new school during gridlocked peak usage.
