### Comments

**Type of comment:** Object to the proposal

**Comment:** The proposals are trying to squeeze a quart into a pint pot. (1) There are too many housing units for the size of the site and these should be reduced by 20%. (2) The impacts on traffic and public transport have not been thought through and will create significant local bottlenecks. No development should take place without having a robust plan to limit these impacts. (3) The proposed secondary school is surplus to the borough requirements and should be removed from the plan.
