29 Alder Road,
SW14 8ER

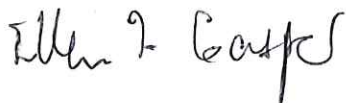

14th May, 2022

Re your letter of 14 04.22 on the development of the former Stag Brewery I am totally against the present plans. The plans as envisaged are going to create such a huge increase in the density of population, which in turn will create a vast increase in traffic which will make the Lower Richmond Road permanently logjammed.

The Lower Richmond Road is already full of traffic, particularly since Hammersmith Bridge has been closed. To envisage masses more cars, buses and people pouring out onto that road will make for total congestion all the time and a vast increase in fumes. Add to that hundreds more pupils from a secondary school coming and going there will be a permanent logjam of traffic and an absolute nightmare at rush hours.

This project is absolute madness, creating traffic chaos all around the entire area. I am totally against it. There is simply no access or exit point along that road for the density of population that is outlined in the plans.

Yours sincerely,

Ellen I. Gasper (Mrs)
