Stag Brewery Revelopment

I am writing, as I have over the last 10 years, with regard to the serious implications of the over development of the Stag Brewery site.

Although slight adaptations have been made in response to the Major of London's comments, this development continues to defy the communities concerns, namely:

**DENSITY** - overwhelms

**HEIGHT** - blocks exceeding 7 storeys

**TRAFFIC** - **particularly safety** - we are already in a daily, near gridlock situation

**SECONDARY SCHOOL** - **why?!**

I have lived in Mortlake for many years (my parents and grandparents also) and work in a local school. I embrace community life and welcome a sensitive approach for redevelopment - we need to put the heart back into Mortlake NOT rip it out!
