Stag Brewery development

Dear Councillors,

Having recently moved to East Sheen I have become aware of this proposed development. Having looked at the plans I can see a lot of merit but am concerned about the following aspects:

The number of units; a new, large secondary school; the disappearance of another sports field and, crucially, more traffic and congestion and poorer air quality.

In the few weeks I have lived here I have endured horrendous traffic jams every time I go along Lower Richmond Road and around 'Chokers' Corner. I hope that more Green councillors will urge the council to think of solutions to this problem other than road widening, which is never a good answer.

Deidre Boylan
