Support for the community plan

I just want to reiterate my support for the community plan for the brewery site as opposed to the dense development proposed. The secondary school has been proved to be unnecessary and it seems a crime to lose the playing fields forever.

I have absolutely no objection to development per se but it is so important to get this right. It will either enhance or ruin the area. Please listen to the local community association who have given so much thought to what would be right for Mortlake.

Thanks for your consideration.

Frances Feehan
