Comments

Type of comment: Object to the proposal

Comment: The proposal does not alter any of the issues in the previous application about bulk, massing and overpowering of local 2 storey homes. These were made in numerous objections on the planning website at that time. The bulk/size issues were strong points of objection raised at the previous planning meeting, with the points made strongly by speakers and generally agreed by committee members. The fact that the objections which were finally agreed on, and written up in the Officer Report, did not include these objections of bulk/mass etc does not mean that they are not still valid. The principle of such a tall set of buildings was not agreed at that meeting when the previous plan was rejected. Correcting the points written up from the previous meeting is not enough to make the current proposal in any way acceptable.
