Comments

Type of comment: Object to the proposal

Comment: We object to the proposed development on many grounds

Our main concerns are

The development means that the proposed properties will look directly into our bedroom , living space kitchen and garden they will be overbearing and we will lose all privacy. We have young grandchildren staying frequently these flats will look directly into their bedroom which is completely inappropriate .

The overbearing height of these buildings will block out all our afternoon / evening natural sunlight to our garden and balcony making it therefore oppressive and dark and in the winter time virtually no natural light at all . This will be detrimental to our mental health and well-being .

Having the buildings so close to our back fence with a public right of way will create noise and light pollution again detrimental to our well being . We feel this site is overdeveloped with no consideration given to the local area, traffic, parking and general congestion again massively detrimental to the village of Hampton Hill.

On thé above grounds we strongly object to the proposed plans .
