Type of comment: Make a general observation

Comment: If this project is allowed to proceed how long will it be before the owners of the other properties on the site will attempt to exploit the conversion to profitable housing, given that the council planners have relaxed the criteria that usually restricts the size and appearance of developments like this? This development which is completely different to any of the surrounding housing in Hampton Hill shows the contempt the council has for the people they are supposed to represent and the local existing environment. The fact that the developer is a charity which is using the plan to raise money for use somewhere else show it is a pure commercial undertaking which cares nothing for the locality but only for the profit it will make providing 'luxury apartments 'and as little affordable housing as it can get away with. I would like to think our local representatives would have dismissed this unsuitable and detrimental project out of hand when it was first mooted but they always seem reluctant to stand up for their constituents in situations like this.
