Comment: The revised plans submitted for this development have not addressed the issues previously raised by local residents. The scheme is too large to be shoe-horned into an already congested area and the proposed height of the buildings will not be in keeping with the village atmosphere of Hampton Hill. It will cause additional problems with heavy vehicles in Windmill Road, especially with pollution, road safety issues and parking which is already an issue for local residents especially those not able to cycle or use public transport. The extra burden on local services such as healthcare and schools also needs to be considered and obviously the strain on water supply. Accepting that this site is long overdue for redevelopment, apart from the need for social housing it is hard to see the benefits of this planned development which will have such a detrimental impact on the local area and its residents.
