### Comments

**Type of comment:** Object to the proposal

**Comment:** I strongly object to this proposed development. Nothing seems to have changed from the first application and Notting Hill Home Ownership continue to completely ignore residents objections.. Flats 3-5 storeys high on a site where existing empty buildings seem to be no more than 3 storey is ridiculous and must be in direct opposition to the Council's Local Planning Policy (LLP2) which states that the council will require new buildings, including extension and re-development of existing buildings to RESPECT and strengthen the setting of the borough's valued townscape and landscape through HEIGHT etc.etc. Also (LLP4) talks about conserving where possible and taking the opportunity to make a positive contribution to the historic environment etc.etc. (LLP1) design & character - states that developers should ensure that the development RESPECTS, CONTRIBUTES TO & ENHANCES the local environment etc. etc..Hampton Hill is considered a village and as such this proposal is totally out of keeping with the area. Properties in Windmill Rd and Holly Rd are primarily period homes of 2/3 storeys, of which residents are proud, not modern eyesores like this. The infrastructure, doctors/dentists/school/ transportcannot cope with a large influx of people and parking is already completely inadequate for existing cars..

Added to which the building materials do not match or blend in with the lovely red or yellow brickwork of existing properties
