Type of comment: Object to the proposal

Comment: Whilst we understand the necessity for new homes to be built, especially affordable ones, the location of these homes requires careful consideration. We believe these proposed plans, as they are currently written are completely inappropriate. The infrastructure of our local environment would need to be able to support any additional traffic and parking. It is clearly evident that our locality is already supporting heavy traffic; any additional traffic would have an impact on pollution in the area; a serious consideration. Parking for local residents is already an issue - I dread to think of the impact 100's more vehicles would make...

There are many historic buildings in the local area and I question whether the proposed plans will be sympathetic to the local area.
